TECHNICAL SKILLS

```
const FRONTEND = [
  { skill: 'TypeScript', years: 9 },
  { skill: 'React', years: 5 },
  { skill: 'Three.js', years: 9 },
  { skill: 'SASS', years: 7 },
  { skill: 'Emotion', years: 5 },
  { skill: 'MUI', years: 4 },
  { skill: 'React Three Fiber', years: 4 },

const TESTING = [
  { skill: 'Jest', years: 4 },
  { skill: 'React Testing Library', years: 4 },
  { skill: 'Cypress', years: 2 },
  { skill: 'Storybook', years: 2 },
  { skill: 'Log Rocket', years: 2 },

const MAPPING TECHNOLOGIES = [
  { skill: 'Mapbox', years: 9 },
  { skill: 'Cesium', years: 2 },

const STATE MANAGEMENT = [
  { skill: 'Apollo', years: 4 },
  { skill: 'GraphQL', years: 4 },
  { skill: 'Zustand', years: 4 },

const Apps and Games = [
  { skill: 'AR/VR', years: 9 },
  { skill: 'Unity C#', years: 7 },
  { skill: 'Android Java/Kotlin', years: 5 },
  { skill: 'iOS', years: 3 },

const 3D = [
  { skill: '3ds Max', years: 16 },
  { skill: 'Blender', years: 6 },
  { skill: 'Photoshop', years: 16 },
  { skill: 'Unreal Engine', years: 5 },
  { skill: 'Unity', years: 7 },
  { skill: 'Zbrush', years: 4 },
  { skill: 'Substance Painter', years: 4 },
  { skill: 'Gaea 2.0', years: 3 },
  { skill: 'Davinci Resolve', years: 3 },
```

FRONTEND

HTML (20 yrs) / CSS (20 yrs) / Javascript (20 yrs) / Typescript (8 yrs) /
React (3 yrs) / Three.js (8 yrs) / Sass (3 yrs) / Emotion (3 yrs) / MUI (3 yrs) /
React Three Fiber (1 yrs) / PHP (5 yrs)

TESTING

ABOUT ME

Hi, I'm Ian and I'm a web developer with a particular interest in 3D and earth mapping technologies. I built my first website in 1999 and have kept up to date with the latest technologies ever since, having developed industry standard applications in my previous roles using react, three.js, mapbox and cesium.

My 20 year career has seen me work with a variety of platforms and technologies. Working in startups has taught me to be versatile, efficient and adaptable. I am passionate about learning and helping others achieve their goals.

I am a highly motivated, sociable, fast working and adaptable individual that is looking for roles where I can contribute and make a difference. I prefer office based work over remote when possible. As a more senior developer I am looking to mentor and help others and always like to contribute in meetings.

In my personal life, I like to keep active with cycling and running. I once captained a local winning Dodgeball team. I am currently training for the great north run in aid of Prostate Cancer. I love to watch films, Formula 1 and football (I will tell you who I support if I get the job), I like to keep up to date with the latest tech on youtube and enjoy reading influential books such as 'The Mom Test' and 'Million Dollar Weekend'. Of course I also enjoy spending time with my family and friends and spending too much money on Lego!

Jest (3 yrs) / React Testing Library (3 yrs) / Cypress (1 yrs) /
Storybook (1 yrs) / Log Rocket (1 yrs)

MAP TECHNOLOGIES

Mapping/Geospatial: Mapbox (8 yrs) / Cesium (1 yr)

STATE MANAGEMENT

Apollo (3 yrs) / GraphQL (3 yrs) / Zustand (3 yrs)

CLOUD/DEVOPS

AWS (8 yrs) / git (10 yrs) / CI-CD (8 yrs) / Docker (5 yrs) / Nginx
(3 yrs) / apache(I5 yrs)

APPS AND GAMES

AR / VR / C# / Android Java / Kotlin / ios

3D

3ds Max / Blender / Photoshop / Unreal Engine / Unity /
Three.js / Zbrush / Substance Painter / Gaea 2.0 / Davinci
Resolve

EMPLOYMENT HISTORY

Insight UK – Creative Developer (Contract)

December 2025 – March 2026

- Built a high fidelity digital dashboard presenting complex business data as a rich, compelling visual narrative.
- Created futuristic, movie quality visuals using Unreal Engine and Three.js.
- Developed AI driven storytelling to guide viewers through complex datasets.
- Modelled and sourced the 3D and 2D graphics for the project.
- Delivered to a fixed deadline for a high stakes client presentation.

3DEO – Lead Visual Engineer

2016 – 2024

- Built a browser based realtime 3D terrain visualizer in typescript for displaying and analysing Bathymetry (under water) elevation data.
- Co Developed the customer portal in react and AWS for managing and viewing complex customer geospatial data.
- Improved volume calculation speeds from 30 seconds to 0.1 seconds, via gpu calculations.
- Designed and built terrain colouring method that allowed customers to analyse their large datasets in realtime.
- Worked with Harwich Port to build simple colour system for guiding harbour pilots through port.
- Worked with team to convert huge datasets (gigabytes) into a format that could be streamed to the browser in seconds.
- Developed method to show changes in elevation data over time, again in realtime.
- Created Server app for converting raw cctv feed to browser compatible video stream.
- Created an AR mobile app to show air quality at various real world locations.
- Built a realtime 3D flythrough of the Forth estuary, for use at the COP26 summit.
- Worked with AWS EC2, S3 and other backend infrastructure.

Freelance Developer – App Development

2011 – 2016 and 2024 – Present

- Created 'Zippy Town 3D', a cartoon city live wallpaper for Android, with a full Three.js showcase site at zippy.town using DRACO compressed meshes, LOD and post processing.
- Produced the photorealistic hero render sequence for the M-Sport Ford Raptor T1+ Dakar Rally site, taking the supplied CAD model into Unreal Engine for materials and lighting. The site won Awwwards Site of the Day.

- Built a VR driving simulator for highlighting the dangers of Alcohol and driving.
- Various AR based app, including displaying interactive information on a real world brain model.
- Worked on Sixty5 app for helping farmers spray fields using GPS data.
- Worked on Combat Air Patrol 2 flight simulator. Modelling cockpits, Aircraft and various supporting assets.
- Created 'Ocean Depths' app for an exhibition. A first person journey into the depths of the ocean in a submarine.
- Developed my skills in client management and personal organisation.
- Built detailed model of Queens University building in Belfast.

Caspian Learning – Artist / Developer

2005 – 2015

- Building educational games for schools, military and professional industries.
- Used 3ds Max and Photoshop to create, edit characters, objects and environments for the game engine.
- Worked closely with programmers to develop efficient and flexible character rig, which included facial animation.
- Created, applied and edited looping character animations for all game characters.
- Worked on projects for high profile clients such as Siemens, IBM, Fiat, Unilever and PWC.
- Developed tools to rapidly speed up art asset importing as well as improve quality.
- Organised and managed over 2000 art assets in the Caspian library.
- Worked with development team to bring lightmapped environments to the game engine.
- Built a custom 3ds Max material editor to speed up working with game engine materials.

G-unleashed.com – Co Founder, Developer and Designer

2004 – 2005

- Built popular Grand Theft Auto websites, GTA3 Unleashed, Vice city Unleashed and G-Unleashed.
- Achieved ranking in the top 50,000 most active websites according to alexa rankings.
- Achieved No. 1 search ranking for “GTA Vice City hidden packages guide” on google.

EDUCATION

2004

1999

1997

INTERESTS AND ACHIEVEMENTS

- Created and released Xbox Live Indie Game, Avatar Euro Penalty Shootout with a friend , which achieved number 1 sports game and number 8 overall chart position in the UK
- I regularly attend events and networking meetings related to gaming, IT and the creative sector.
- Always keen to learn and keep my knowledge and keep up to date by attending industry related conferences such as unity.com/events/unite and www.middlesbroughfe.co.uk
- Co Developed a Kinnect training simulation for NATO and demonstrated it in Rome at the annual ITEC conference www.itec.co.uk
- Achieved a top 60,000 website ranking on alexa with www.g-unleashed.com
- I love to keep fit by cycling and walking
- Avid Follower of TEDTalks andt Tech blogs such as Geek.com, and TheVerge.com
- Love Motorsport and Formula 1
